

VR PRESS RELEASE

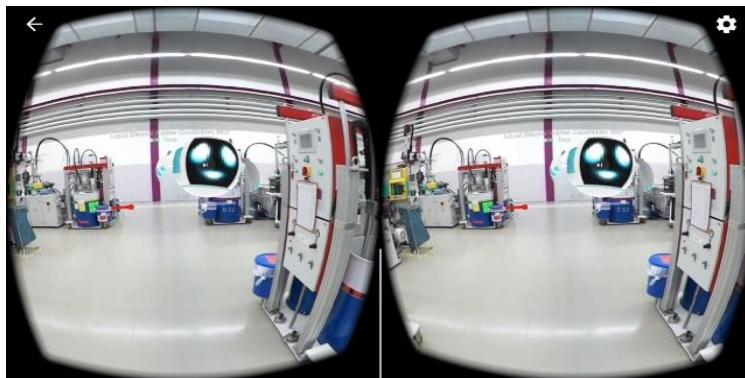

An immersive Tour of our Global manufacturing facility

Take a virtual tour through the Trelleborg Sealing Solutions facility in Stein am Rhein, Switzerland, and see how LSR components can provide value and benefits. Discover why custom engineered LSR components are seeing use in more and more applications by taking a 360° tour of Trelleborg's state-of-the-art production facility in Stein am Rhein.

The latest addition to our VR library is the extensive VR tour of our TSS Bengaluru manufacturing facility covering the Global Elastomer plant and the Global Plastics Manufacturing Unit. Experience the rich VR technology and allow yourself to be taken to the state of art sealing manufacturing facility from anywhere in the world.

From the tool machining centre to cleanrooms and the production floor, see the full facility in close-up detail. Travel behind the scenes and take a look inside a CNC machine to see how precision molds are manufactured, even fly over the automated production floor in full flow. Learn how 2K components are created and see the advanced machines developing the zero-defect, robust products that customers across the world rely on.

The manufacturing capability VR Tour joins the ever-growing range of Trelleborg Sealing Solutions Digital Tools and Services.
